SUMMARY

Frontend Developer with a strong passion for transforming designs into responsive and engaging user experiences, eager to expand into full-stack roles. I have a solid foundation in HTML, CSS/Tailwind, JavaScript/TypeScript, React, and Next.js, and I'm proficient in writing clean, impactful code. I also possess foundational experience with backend technologies including C#, .NET, Node.js, and Firebase. I am a committed learner dedicated to continuously overcoming new hurdles and developing innovative solutions. I am actively seeking an On-the-Job Training (OJT) opportunity to apply these skills in real-world software projects.

EDUCATION

Cebu Institute of Technology – University

B.S. Computer Engineering

Expected: May 2026

Cebu City, Cebu

- Grades: Consistent 4.0 GPA
- Member of University Dance Troupe (SALAMISIM DANCE TROUPE)
- Former Head of Research and Development (ICpEP.SE)

SOFTWARE PROJECTS

SAGIP PILIPINAS

- Led the frontend development, creating key features including the Home Page, Map Page, Request Aid forms, user authentication (Login/Registration), donation forms, and navigation components.
- Engineered the site's routing architecture and ensured full responsiveness across all user interfaces.
- **Tech Stack:** Next.js, Tailwind CSS, TypeScript, Visual Studio Code, Github.

SWIFT SAIL

- Designed and developed the UI/UX for the Home page, user profile management system, and primary navigation components.
- Implemented client-side routing and dynamic modal interactions.
- **Tech Stack:** React.js, JavaScript, CSS, Visual Studio Code, Github.

GOURMET GAMBLE

- Developed the primary frontend UI/UX, including the Home, Recipes, Community, and Profile pages, along with navigation elements.
- Managed page routing and implemented interactive modals for enhanced user engagement.
- **Tech Stack:** React.js, JavaScript, CSS, Visual Studio Code, Github.

QUICKSHOP

- Independently designed, developed, and implemented a full-stack Point-of-Sale (POS) system using C# and .NET.
- Built features including sales processing, inventory management, sales reporting, and a user self-serve kiosk. This project provided hands-on experience with software development lifecycle, from concept to deployment.
- **Tech Stack:** C#, .NET, SQL, Visual Studio 2022, Github.

SKILLS & INTERESTS

- **Technologies:**
 - **Programming Languages:** C#, JavaScript, TypeScript, Python, SQL, HTML, CSS
 - **Frameworks/Libraries:** .NET, React.js, Next.js, Node.js, Tailwind CSS
 - **Databases:** SQL, Firebase, MS Access
 - **Developer Tools:** Git, Github, Visual Studio 2022, Visual Studio Code, Gemini, ChatGPT
 - **Collaboration:** Discord, Microsoft Teams
- **Soft Skills:** Strategic Planning; Critical Thinking; Communication Skills; Team Player; Organizational Skills; Problem Solver; Committed Learner.
- **Interests:** Gaming, Dancing, Frisbee, Soccer, Swimming, Hiking, and Running.
